AngularJS	React	Redux	Redux-Saga	Java	Spring
Spring boot	Node.js	MySQL	Oracle DB	MSSQL	MongoDB
PostgreSQL	JPA	Selenium	SASS/SCSS	SVN	APIs

---

### Experience

---

#### Smart Data Solutions / Account Management Programmer

February 2019 - July 2019, Eagan, MN

Pulled support tickets and helped troubleshoot issues presented by clients. Upon client approval of a SOW (statement of work), developed, tested and executed new logics/code per their request.

#### Mobile C&C / Software Developer

August 2013 - July 2017, Gangnam, Seoul, South Korea

Managed the server side of several apps from development teams using Java based Spring Framework software system implemented specifically by this company. Created numerous server side database structures that are still being used by the company.

---

### Education
